Project Experiences

• InvoiceKu – Invoice Management Apps

Developed an invoice management application to streamline billing processes for freelancers and small businesses. Implemented features such as client and product management, recurring invoices, and automated PDF generation for reporting. Utilized Next.js, Express.js, PostgreSQL, and Tailwind CSS for fullstack development. [Link](#)

• Japregeo Web – HRIS Management Apps

Developed a modern HRIS web application focused on employee attendance management using React.js and Material UI. Implemented features such as real-time attendance validation, data filtering, secure API integration, and role-based UI rendering. Ensured responsive design, reusable components, and smooth user experience across desktop and mobile screens.

• PT Inovasi Solusi Muda Web – Company Profile

Developed a modern company profile website for a tech-based business using Astro and Tailwind CSS. Implemented clean, responsive UI components, section-based layouts, and optimized page performance. Ensured accessibility, maintainability, and smooth navigation to support brand identity and digital presence. [Link](#)
